

Build Your Garden from the Ground Up

RAISED GARDEN BED SETUP INSTRUCTIONAL

4 ft × 8 ft

2 ft deep

Bed dimensions

01 Choose your spot

Choose your garden bed location and **make sure the ground is level**. Leave at least 3 ft between beds for walkways.

02 Lay the soil cloth

Cover the garden bed footprint **and the walkways around it**. Use enough cloth for the full area and overlap adjoining strips.

03 Assemble the frame

POSITION · SLIDE · SECURE

A Set the corner posts

Place one steel post at each corner, with the board channels facing inward.

B Slide in the boards

Guide both ends into the post channels. Stack three boards on each side.

C Align and secure

Check that the frame is square and level. **Use self-tapping screws** to secure the boards to the posts.

Assembly tip

Work with a second person to keep both ends aligned as you lower each board.

OPTIONAL

Add the hoops

Fit the hoop ends into the supports at each of the four corner posts.

Build the Layers, from the Bottom Up

4 ft × 8 ft
2 ft deep

Follow steps 04–08, then finish the walkways.

- 04 Add pea gravel**
Spread pea gravel evenly across the bottom of the bed.
- 05 Add the second cloth**
Lay soil cloth over the gravel and turn it up the inside walls. Staple it in place if needed.
- 06 Add raw mulch**
Use raw mulch as the **bulk of the bed's fill**. Leave space above for planting soil and the surface cover.
- 07 Add planter soil**
Add **6–12 in.** of garden bed planting soil above the raw mulch. Leave room for Nature's Blanket.
- 08 Nature's Blanket**
Finish with a chocolate-brown surface cover. Keep plant stems and seeded rows clear.

Front wall removed to show the layers. Diagram not to scale.

AROUND THE BED

Finish the walkways

Spread raw agave wood chips over the soil cloth around and between the beds. Keep at least **3 ft clear** between beds.

Soil cloth underneath. Raw agave chips on top.
